GABRIEL MORALES

Front-end Developer

WORK EXPERIENCE

Front End Developer

Freelancer | January 2021 - Current

- Developed Jetswap by building a UI-Kit package for diverse interfaces and applications, assisted and helped with the deployment, and collaborate with the blockchain team members to integrate smart contracts using Web3.js.
- Programmed Fortress and WSB landing pages implementing the new responsive, mobile-first approach and best practices.
- Resolved Git conflicts and problems, advising on various Git and GitHub functionalities.
- Redesigned Polaris and Voodoo Dollar Interface and Assessed UX and UI designs for technical feasibility.

EDUCATION

Platzi

Web Development School | November 2020 - Current

- Learned the principles of the web and developed various projects based on performance, optimization, and logic.
- Achieved a score of 9/10 or above.

Relevant Coursework: React, Asynchronism with JavaScript, Closures, and Scope in JavaScript, ECMAScript 6+, Basic JavaScript, Frontend Developer, Dependency and Package Management, Git and GitHub, Web development with HTML5, CSS, JS, AJAX, PHP, and MySQL.

High School in Science

Graduated in 2018

- Won a school chess tournament and a silver medal at a regional chess Olympics competition (2017).
- Average of A and B in each class.
- Became the captain of the soccer team (2016 - 2018).

INTERESTS

As a kid, I've been interested in learning new languages. Currently, I'm learning basic French by reading books like Tin Tin Adventures. On the other hand, I have been interested in Blockchain technologies and decentralized projects, taking some courses oriented to Smart Contracts and integrations.
